➔ Worked on software developed for entry management and also helped in tweaking it
➔ Maintained the database of 1000 of customers with ACID property

Intercraft, Mumbai — *Computer Technician*

2015 - 2017

➔ Was responsible for installing, maintaining & troubleshooting hardware and software as well as answering computer–related questions from employees

PROJECTS

Twitter Sentimental Analysis of Uber & Ola using SVM & Naive Bayes — *Sentiment analysis was done from the tweets extracted from twitter using API for business purposes of cab services such as Uber and Ola using Machine Learning*

➔ Research Paper published under Springer "**Effects of Uber & Ola on SVM and Naive Bayes**"
➔ Research Paper published under Web of Science "**Twitter Sentimental Analysis & Algorithm Comparison**"
➔ Research Paper to be published under IEEE "**Sentiment Analysis using Deep Learning Algorithms**"

SKILLS

Python ★★★★

Machine Learning ★★★

Deep Learning ★★★

Computer Vision ★★

R ★★

Java ★★★

AWARDS

Statistical Analysis for COVID 19 under pre & post lockdown affects → 4th place

Kaggle Pubg Prediction using Machine Learning in R

Kaggle Machine Learning Tournament → Top 50

CERTIFICATES

NPTEL Java Programming

Aptech EE & SE Development

Alison ML in R Programming

Skyfi Labs ML in Python

LANGUAGES

English, Hindi
